Educational Foundations

The Governing Board recognizes its fiscal inability to finance all the auxiliary programs within the Newhall School District which are desired by the community. In recognition of this fact the Board encourages community efforts to support the District and its programs through voluntary contributions from parents, school support groups and the community at large.

The Governing Board supports the concept of a district-wide educational foundation subject to Board Regulations and Administrative Procedures.

Adopted by the Board: August 22, 1983
