Type to Learn 4 - Download instructions for home users

Getting Started

- Students must be currently enrolled in a TTL4 web enabled program at school.
- Students must download the program on their home computer. *1GB of memory is required, TTL4 is compatible with most operating systems but is not compatible with Google Chrome Books, iPads, or Android Tablets.*
- All students will need their **Username**, **Password**, and the school's **Account Code** which the teacher has provided below. ** Please contact your school if you do not have this information*

Account Code:
Username:
Password:

Please visit the following website to download the program:

http://ttl4.sunburst.com/downloads/

Windows Users

Once you have entered the link above into a web browser, you will scroll down to __Windows__ and select **Web (School to Home) "Full TTL4 v1.2.1 Application – Windows (1.01GB)".** To download, click on the link and choose SAVE rather than open or run. The program will now be located in the "Downloads" or "Download" folder. It will be called **TTL4v1[1].2.1.msi**.

Mac Users

Once you have entered the link above into a web browser, you will scroll down to __Mac__ and select the **Web (School to Home) "Full TTL4 v1.2.1 Application – Mac (944.65MB)"** file.
